THE CLEAR CHOICE FOR RESEARCH AND DATA COLLECTION SERVICES

The qSample panel network provides you access to more than 5 million active members around the globe who are double opted-in, pre-screened and highly qualified to participate in a variety of research studies of any level of specificity.

Our industry experience gives us an unparallel advantage to offer innovative tools and industry knowledge needed to tailor sampling and data collection solutions to meet the most stringent demands of our clients.

qSample prides itself in building a community of highly qualified and highly responsive panelists that accurately represent the general population. Using a variety of high level recruitment methods, we attract the right respondents to participate in your research study.

THE qSample ADVANTAGE

Technology
qSample offers its clients innovative technology with global integrated solutions that are readily available online and in real time. Each client is provided a secure login account, which allows access to real time panel count and project feasibility.

Custom Recruitment
While we employ a multi mode recruitment methodology to ensure the steady growth of our panel, our ability to recruit respondents through a variety of media channels make it possible to offer our clients the best price available for their sampling needs. Additionally, we have access to a selected number of panel partners who are carefully screened to ensure they adhere to the same standards upheld by qSample.

Speed. Accuracy. Reliability
Our competitive advantage lies in completing your project on time, on budget, while the integrity of your data is never compromised. Regardless of the type of research study (Gen pop or low incidence population), we go above and beyond the call of duty to ensure deliverables are met as promised.

10 Reasons To Use The qSample Panel Network

1. Unified platform – Our sampling services will now allow you to complete your research project end-to-end under one roof.
2. Preferred panel partnership equals volume discounts that are passed on to you.
3. Panel balancing – Prequalified respondents that accurately represent the general population.
4. Panel Segmentation – Registered panelists must provide detailed demographic and background information, accounting for more than 300 data points collected from each member.
5. Participation control – Weed out bad panelists; Eliminating fatigue and bias by applying a variety of control measures through high level sampling filters.
6. Incentive model – Reasonable and effective incentive programs to reward panelists for their time taking surveys.
7. High Response rate – Thousands of members recruited daily, which results in panelists who are eager to participate in our research studies.
8. Double opt-in membership – Rigorous registration process to validate new members, and continuous profile updates through periodic survey screeners.
9. Low attrition rate – Good panel maintenance results in less than 2% of our members unsubscribing from the panel.
10. Experts at your fingertips – Highly skilled and dedicated project managers who understand the complexities of online data collection.
